Notes to the consolidated financial statements
(Unaudited)
June 30, 2008

Bell Aliant Regional Communications Holdings, Limited Partnership was established under the laws of Quebec, and holds the principal operations of Bell Aliant Regional Communications Income Fund (the Fund). All references to “we”, “us” or “our” refer to Bell Aliant Regional Communications Holdings, Limited Partnership and its subsidiaries.

1. SIGNIFICANT ACCOUNTING POLICIES

Consolidated financial statements

We have prepared these unaudited interim consolidated financial statements in accordance with Canadian generally accepted accounting principles (GAAP) using the same basis of presentation and accounting policies as our audited consolidated financial statements for the year ended December 31, 2007, with the exception of the adoption of new accounting policies discussed below. These unaudited interim consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2007.

Capital disclosures

Commencing January 1, 2008, we adopted Section 1535, Capital Disclosures, which was issued by the Canadian Institute of Chartered Accountants (CICA) and establishes standards for disclosing qualitative and quantitative information about an entity's capital and how it is managed. Refer to note 16 for our capital management discussion.

Inventories

Commencing January 1, 2008, we adopted Section 3031, Inventories, which was issued by the CICA, and establishes new standards for the measurement, recognition and disclosure of inventories. There were no material effects as a result of this change. Refer to note 4 for further information on inventory.

Inventory represents products or equipment purchased for resale. We value inventory at the lower of cost and net realizable value, with cost being the weighted average cost using the first-in, first-out method. Net realizable value represents the estimated selling price for inventories less all estimated costs to sell.

Future changes in accounting policies

The Accounting Standards Board of the CICA continually amends and improves certain standards or guidelines contained in the CICA Handbook. We monitor these changes as they are proposed and will make changes to our accounting policies and disclosures as necessary.

Effective January 1, 2011, International Financial Reporting Standards will replace Canadian GAAP. The Accounting Standards Board has released an exposure draft that outlines the standards. We are currently assessing the effect that this transition will have on our operations and financial reporting.

Comparative figures

Certain comparative financial information has been reclassified to conform to the presentation adopted for 2008, including the reclassification of discontinued operations as discussed in note 5.

2. BUSINESS COMBINATION AND ACQUISITION

Télébec, Limited Partnership (Télébec) and NorthernTel, Limited Partnership (NorthernTel)

On January 1, 2008, the Fund transferred their 36.7 per cent interest in Télébec and NorthernTel to us, in exchange for 8,246,429 class 2 limited partnership units (note 13), resulting in eliminating the non-controlling interest previously reported. The value of our units issued was determined using a combination of discounted cash flow methodology and comparable public company earnings multiple analysis.

As there was no substantive change in ownership of the 36.7 per cent interest in Télébec and NorthernTel, the transfer was accounted for at its carrying value on January 1, 2008. As the Fund had equity accounted for its investment in Télébec and NorthernTel, the carrying value of the net assets transferred was determined based on their respective estimated fair values on January 30, 2007, the date that the Fund acquired the remaining 36.7 per

cent interest in Télébec and NorthernTel from Bell Nordiq Income Fund, and adjusted for the depreciation and amortization of such assets for the period February 1, 2007, to December 31, 2007. The remainder of consideration paid has been allocated to goodwill. This resulted in an adjustment to the carrying values of the assets and liabilities as follows:

(millions of dollars)

Assets acquired and liabilities assumed		
Property, plant and equipment	\$	30.2
Finite-life intangibles		181.9
Indefinite-life intangibles		40.6
Goodwill (note 7)		191.8
Non-controlling interest (note 12)		89.0
Long-term liabilities		(20.0)
Net assets acquired	\$	513.5

Property, plant and equipment mainly represent telecommunications facilities and equipment, and buildings. Finite-life intangibles relate to customer relationships and roaming agreements. These assets will be depreciated and amortized using the same methods and over the same useful lives as our existing capital investments. Indefinite-life intangibles relate to the Télébec and NorthernTel brands and telecommunications licenses.

Goodwill recognized in this business combination is not deductible for tax purposes.

Kenora Municipal Telephone System

On February 1, 2008, we purchased the assets and operations of Kenora Municipal Telephone System for total cash consideration of \$27.1 million in addition to direct acquisition costs of \$0.7 million. The results of operations have been included in our consolidated financial statements since that date.

The total consideration paid will be allocated to the assets acquired and liabilities assumed based on their respective fair values on February 1, 2008. The allocation process requires an analysis of the value of customer relationships, acquired contractual rights, assumed contractual commitments and legal contingencies to identify and record the fair value of all assets acquired and liabilities assumed. In valuing acquired assets and assumed liabilities, fair values are based on, but are not limited to: quoted market prices, where available; expected future cash flows; current replacement cost for similar capacity for certain capital assets; market rate assumptions for contractual obligations; and appropriate discount rates and growth rates. The purchase price allocation also requires the calculation of future income tax assets or liabilities associated with the assets acquired and liabilities assumed. Any excess purchase price over the fair value of the identifiable assets and liabilities will be allocated to goodwill.

As at June 30, 2008, the purchase price allocation was not finalized, but initial allocations were made as follows:

(millions of dollars)

Assets acquired and liabilities assumed		
Current assets	\$	1.3
Property, plant and equipment		9.3
Goodwill (note 7)		18.0
Current liabilities		(0.7)
Long-term liabilities		(0.1)
Net assets acquired	\$	27.8

2. BUSINESS COMBINATION AND ACQUISITION (Continued)

Kenora Municipal Telephone System (continued)

These values are based on preliminary valuations and are subject to adjustment as additional information is obtained.

We are in the process of conducting internal studies of assets including property, plant and equipment, intangible assets and certain liabilities. Finalization of valuations and completion of our purchase price allocation may result in material adjustments to the goodwill. As well, net earnings may be affected by a material amount due to the calculation of amortization on the fair values of property, plant and equipment and other finite-life intangible assets subject to amortization as well as the final determination of future income taxes.

3. TRANSFER OF RECEIVABLES

In March 2008, we reduced the net cash proceeds under our revolving accounts receivable purchase and sale agreement with a securitization trust by \$55.0 million. At June 30, 2008, our net cash proceeds under the agreement were \$165.0 million. The security required under the agreement recorded as retained interest was \$45.3 million at June 30, 2008 (December 31, 2007 - \$61.0 million).

4. INVENTORY

For the three and six months ended June 30, 2008, the cost of inventories recognized as an operating expense, in respect of continuing operations, was \$6.3 million and \$12.3 million respectively (June 30, 2007 - \$7.8 million and \$14.1 million, respectively). This includes an immaterial amount of inventory write downs (June 30, 2007 – immaterial amount). There were no reversals of inventory write-downs in the period. A portion of the inventory of our discontinued operations is pledged as security for certain uncommitted lines of credit, which had an outstanding balance of nil at June 30, 2008 (December 31, 2007 - \$5.7 million) (note 9).

5. DISCONTINUED OPERATIONS

Atlantic Mobility Products Limited Partnership (AMP)

AMP had an arrangement with Bell Canada to be their exclusive distributor of mobility products in Atlantic Canada, which Bell Canada has discontinued effective July 4, 2008. The loss of the exclusive arrangement will result in the elimination of our wholesale distribution of mobility hardware and accessories business. As a result, in the second quarter of 2008 we have reclassified the results of AMP's operations as discontinued operations. Accordingly, prior period financial statements have been reclassified to reflect this change.

Salesbridge Canada Corp. (Salesbridge) and Aliant Directory Services (ADS)

In 2007, the results of operations of Salesbridge and ADS were reported as discontinued operations. Salesbridge is being wound up and has not operated in 2008 and ADS was sold in April 2007.

The summarized statements of earnings for the discontinued operations are as follows:

7. GOODWILL

(millions of dollars)

Goodwill, as at December 31, 2006	\$	5,446.2
Allocations to assets and liabilities as a result of the finalization of purchase price allocation on the acquisition of Bell Canada's wireline operation in Ontario and Quebec and Bell Nordiq Group		(2,891.7)
Goodwill, as at December 31, 2007	\$	2,554.5
Acquisition of interest in Télébec and NorthernTel (note 2)		191.8
Acquisition of assets and operations of Kenora Municipal Telephone Systems (note 2)		27.8
Allocations to assets and liabilities as a result of the estimated purchase price allocation on the acquisition of Kenora Municipal Telephone Systems (note 2)		(9.8)
Write down related to Atlantic Mobility Products Limited Partnership (AMP) goodwill		(11.2)
Goodwill, as at June 30, 2008	\$	2,753.1

During the first quarter of 2008, as a result of Bell Canada notifying us of their intent to discontinue using AMP as its exclusive distributor of mobility products in Atlantic Canada, we assessed the carrying value of goodwill related to AMP. An impairment charge of \$11.2 million was recorded, which reduced the carrying value of the goodwill related to AMP to zero. AMP has been reclassified as discontinued operations as discussed in note 5.

8. RESTRUCTURING AND OTHER CHARGES

In 2007, we estimated and recorded a pre-tax restructuring charge of \$27.4 million related to costs to continue advancing the organization's productivity initiatives leading into 2008. The charge includes \$23.1 million of severance and benefit costs, and \$4.3 million of real estate rationalization costs. The final cost of the initiatives could be materially different from our estimate as departing employees will have options that could affect their severance. The restructuring charge liability will be drawn down as employees leave the organization or as lease vacancy and other real estate costs are incurred.

At June 30, 2008, payables and accruals included a restructuring and other charge balance of \$15.6 million (December 31, 2007 - \$22.8 million), composed of \$4.1 million of real estate rationalization costs and \$11.5 million in severance and benefits (December 31, 2007 - composed of \$4.3 million of real estate rationalization costs and \$18.5 million in severance and benefits).

9. SHORT-TERM DEBT

Available operating facilities

We have increased the amounts available for use under operating credit facilities by \$23.0 million to \$1,204.0 million during the six months ended June 30, 2008, as follows:

- Dedicated letter of credit facilities were increased by \$25.0 million to a total of \$163.0 million; and
- Demand operating facilities were decreased by a net \$2.0 million to \$15.0 million.

Included in these amounts available under operating credit facilities is \$5.0 million (December 31, 2007 - \$12.0 million) for discontinued operations.

Amounts drawn under operating facilities

Short-term promissory notes of \$229.5 million (December 31, 2007 – NIL) under our commercial paper program, which is supported by our revolving operating facilities, bear interest at an average of 3.28 per cent and mature at various dates between July 2, 2008, and October 1, 2008.

At June 30, 2008, there were no banker's acceptance advances outstanding under our revolving operating facilities (December 31, 2007 - \$210.0 million).

10. LONG-TERM DEBT

In June 2008, we established a new term bank facility for \$50.0 million that expires in June 2010. Advances under the facility are through banker's acceptance with terms less than 180 days and bear interest at the banker's acceptance rate plus 0.85 per cent per annum. On June 23, 2008, we drew \$50.0 million on this facility to repay, at maturity, Télébec's 5.85 per cent Series Z debentures at their principal amount. At June 30, 2008, the \$50 million in advances outstanding carried an interest rate of 4.11 per cent. Related to this debt, we also entered into an interest rate swap with similar terms in order to manage our exposure to future interest rate changes. Refer to note 11 for further information.

11. FINANCIAL INSTRUMENTS

Derivative financial instruments

We have the following fixed-floating interest rate swaps outstanding to hedge the variability in cash flows related to a portion of our floating rate debt.

<i>(millions of dollars, except as otherwise noted)</i>	Termination date	Fixed interest rate	As at June 30, 2008		As at December 31, 2007

11. FINANCIAL INSTRUMENTS (Continued)

Derivative financial instruments (continued)

Under these swaps, which are being accounted for as cash flow hedges, we pay a fixed rate of interest and receive the floating bankers' acceptance rate, reset quarterly. The fair values at June 30, 2008, and December 31, 2007, are in favour of the counterparty and are recorded as derivative liabilities. At June 30, 2008, a one per cent increase (decrease) in the interest rates used to value our interest rate swaps would cause the derivative liability to decrease (increase) by approximately \$5 million.

Fair value of financial instruments

The carrying value of all financial instruments approximate fair value with the exception of long-term debt, which at June 30, 2008, has a carrying value of \$2,571.2 million and a fair value of \$2,361.4 million (December 31, 2007 – \$2,573.6 million and \$2,422.8 million, respectively).

Deferral account

Bell Canada's deferral account includes amounts that arose from customers located in what is now our territory in Ontario and Quebec. Bell Canada's accumulated deferral account commitment at June 30, 2008, was estimated to be \$152.0 million, with an estimated future annualized commitment of \$1.3 million. The accumulated deferral account commitment takes into account the estimated deferral account drawdown during the first quarter of 2008 associated with the CRTC approved broadband expansion program and the initiatives associated with improving access to communications services for persons with disabilities. On March 3, 2008, along with Bell Canada, we filed proposed reductions to rates for stand-alone local residential telephone access services in regulated exchanges within the non-high cost serving area (non-HCSA) portions of the Ontario and Québec serving areas which, if approved, would eliminate Bell Canada's future annualized commitment.

The CRTC has approved a total of 102 communities within the Ontario and Québec portions of the servicing areas of Bell Canada and Bell Aliant in which Bell Canada and Bell Aliant can deploy broadband using the funds in Bell Canada's deferral account. In January 2008, the CRTC also approved Bell Canada's proposed initiatives to improve access to telecommunication services for persons with disabilities. Finally, the CRTC directed Bell Canada to rebate any balance remaining in its deferral account to residential subscribers in urban, non-HCSAs within the Ontario and Quebec portions of the servicing areas of Bell Canada and Bell Aliant.

Subject to the outcome of CRTC decisions and court proceedings, we will be affected by these and further proposals of Bell Canada to satisfy their deferral account obligations, as we have agreed to contribute to the economic spending portion of the broadband project. We are unable to estimate the effect on our financial results at this time.

16. CONTINGENCIES

On June 26, 2008 a proposed class action was filed in the Saskatchewan Court of Queen's Bench against various Canadian telephone companies, including Bell Aliant Regional Communications, Limited Partnership, in relation to the charging of 911 fees. The suit alleges, among other things, breach of contract, negligence, collusion, and breach of fiduciary duty, and generally claims that the defendants have misrepresented the nature of 911 fees, and that the charges levied on customers are excessive. The plaintiffs claim unspecified damages. We have defences to this claim, but the outcome of the matter is not determinable at this time.

17. CAPITAL MANAGEMENT

Our capital structure includes all components of partner's equity, the non-controlling interest in the equity of our controlled subsidiaries, long-term and short-term debt, net of cash and cash equivalents.

Our objectives in managing our capital structure are to:

- maintain financial flexibility to preserve our ability to meet existing commitments and invest as necessary in the future development of the business;
- provide access to sufficient cash flow to operate the business;
- mitigate the impact of volatility in financing costs on the cash flows of the business; and
- optimize the return to unitholders by utilizing an appropriate mix of debt and equity in the capital structure given our level of business risk.

17. CAPITAL MANAGEMENT (Continued)

When managing our capital structure we consider changes in economic conditions or the level of business risk and, from time to time, we consider and may adjust our distribution policy, enter into hedging transactions, issue or redeem debt, issue or repurchase partnership units or raise cash through our accounts receivable securitization program.

The non-GAAP financial metric we use to monitor our capital structure is the net debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio. This financial ratio is calculated using a trailing twelve-month period for EBITDA. We define net debt as short-term and long-term debt less cash and cash equivalents. We define EBITDA as operating revenues less operating expenses, less the amount included in operating expenses for net benefit plans costs as a significant component of these costs reflect the amortization of past costs. Our capital management objective, which is unchanged from the prior year, is to maintain this ratio at approximately 2.0: 1.

Our net debt to EBITDA ratio at June 30, 2008, and December 31, 2007, were as follows:

<i>(millions of dollars, except as otherwise noted)</i>	As at		As at	
	June 30, 2008		December 31, 2007	
Short-term debt (including notes payable)	\$	232.0	\$	218.6
Long-term debt, including current portion		2,571.2		2,573.6
Less: Cash and cash equivalents		(8.9)		(48.1)
Net debt	\$	2,794.3	\$	2,744.1
Operating revenues	\$	3,309.7	\$	3,279.9
Less: Operating expenses		(1,980.4)		(1,969.6)
Add: Net cost of benefit plans included in operating expenses		123.4		131.6
EBITDA	\$	1,452.7	\$	1,441.9
Net debt to EBITDA ratio		1.9:1		1.9:1

We are subject to certain covenants on our bank credit facilities, including maintenance of a ratio of total debt to EBITDA (as defined in our credit facilities) of no more than 3.0:1. Under a securityholders' agreement with BCE and Bell Canada, we would need to seek their prior approval if we were to increase our debt to EBITDA ratio (as defined in the securityholders' agreement) above 2.5:1. In addition, we are subject to a new issuance test under our note trust indenture whereby new long-term debt can only be issued if it would result in a ratio of long-term debt to total capital (as defined in the trust indenture) of 75 per cent or less. We are in compliance with all these debt covenants and are not subject to any other externally imposed capital requirements.

18. RELATED PARTY TRANSACTIONS

On January 1, 2008, the Fund transferred its 36.7 per cent ownership interest in Télébec and NorthernTel to us in return for 8,246,429 class 2 limited partnership units of Bell Aliant Holdings LP (note 2). The transfer was accounted for at its carrying value.

Throughout the first six months of 2008, the Fund loaned us their excess cash through a series of promissory notes. The Fund requests repayments as required for operating purposes. The \$1.9 million promissory note that was payable to the Fund at December 31, 2007, was repaid on January 15, 2008. Subsequently issued promissory notes carried rates of interest from 3.21 per cent to 4.68 per cent per annum, resulting in an immaterial amount of interest expense being incurred. At June 30, 2008, a \$2.3 million promissory note was payable to the Fund, which bears interest at 3.25 per cent per annum.

19. SUBSEQUENT EVENT

Defence, Security and Aerospace business

On August 5, 2008, we announced with CAE that we have entered into an asset purchase agreement for CAE to acquire our Defence, Security and Aerospace information technology business, which currently operates under the xwave brand. The purchase price paid on closing will be \$15.1 million with an additional \$11.0 million to be paid contingent upon the occurrence of certain events for a potential total purchase price of \$26.1 million. This transaction is subject to the satisfaction of certain conditions and is anticipated to close before the end of the calendar year.
